

RAJU MANDODARI

Cybersecurity Student | Aspiring SOC Analyst
Andhra Pradesh, India | mandodariraju@gmail.com

PROFESSIONAL SUMMARY

Cybersecurity student pursuing a B.Tech degree with hands-on experience in incident response, threat analysis, network security, Linux administration, SQL querying, Python automation, and security documentation. Completed the Google Cybersecurity Professional Certificate and built practical projects spanning phishing investigations, ransomware analysis, packet analysis, threat intelligence, and security automation. Passionate about Security Operations Center (SOC) analysis, threat detection, and strengthening organizational security posture.

EDUCATION

Bachelor of Technology (B.Tech) – Cybersecurity

Expected Graduation: [Year]

[Your College Name]

Relevant Coursework:

- Network Security
- Information Security
- Operating Systems
- Computer Networks
- Database Management Systems
- Ethical Hacking Fundamentals

CERTIFICATIONS

Google Cybersecurity Professional Certificate

Coursework covered:

- Foundations of Cybersecurity
- Security Risk Management
- Network Security
- Linux and SQL
- Assets, Threats, and Vulnerabilities
- Detection and Response
- Python Automation
- Security Operations
- Career Preparation for Cybersecurity Roles

Additional skills acquired:

- Incident Response
- SIEM Fundamentals
- Threat Analysis
- Security Monitoring
- Log Analysis
- Security Documentation

TECHNICAL SKILLS

Security: Incident Response • Threat Intelligence • Security Monitoring • Security Analysis • Threat Detection • Vulnerability Assessment • Risk Management • Asset Classification

Networking: TCP/IP • DNS • HTTP/HTTPS • Network Security Concepts • Packet Analysis

Tools: Wireshark • VirusTotal • Linux • SQL • Git • GitHub

Programming & Scripting: Python • SQL

Operating Systems: Linux • Windows

CYBERSECURITY PROJECTS

Incident Response Portfolio

Developed multiple incident investigation reports based on real-world cybersecurity scenarios.

- Phishing Incident Response
- Ransomware Incident Investigation
- Data Breach Analysis
- DoS Incident Report

Skills Demonstrated: Incident Analysis • Root Cause Analysis • Security Documentation • Ticket Escalation Procedures • NIST Framework Application

Threat Intelligence and Malware Analysis

Performed malware investigation using Indicators of Compromise (IoCs) and VirusTotal.

- File Hash Analysis
- Threat Intelligence Research
- Pyramid of Pain Analysis
- Malicious Artifact Investigation

Skills Demonstrated: Threat Intelligence • Malware Analysis • IOC Investigation • Security Research

Python Security Automation

Developed a Python algorithm to automate IP allow-list maintenance.

- File Handling
- List Processing
- Access Control Automation
- Logically Removing Unauthorized IP Addresses

Skills Demonstrated: Python Programming • Security Automation • Access Management • File Operations

Network Traffic Analysis

Analyzed packet captures using Wireshark.

- Packet Inspection
- Protocol Analysis
- Traffic Investigation
- Network Monitoring

Skills Demonstrated: Network Analysis • Packet Investigation • Troubleshooting • Security Monitoring

Asset Inventory and Classification

Created a home network asset inventory and classified assets according to sensitivity and access requirements.

Skills Demonstrated: Asset Management • Data Classification • Access Control • Risk Assessment

ACHIEVEMENTS

- Completed Google Cybersecurity Professional Certificate with a score of 90.63%
- Built a public cybersecurity portfolio showcasing hands-on security projects
- Developed practical experience using Linux, SQL, Python, and security analysis tools
- Demonstrated incident response and security investigation skills through documented case studies

SOFT SKILLS

Analytical Thinking • Problem Solving • Communication • Documentation • Attention to Detail • Continuous Learning • Team Collaboration
